

Lesson 1.4 Introduction

Last time on the TED website we went directly to the official journal supplement and looked at the content of the notice. This time we will have a look at the notice search possibilities offered by the website. Note that this site is available in all of the EU languages and you can change the language by clicking on the button on the top right.

The next section is where we'll concentrate in this lesson. You can type a search term into the search bar, country, product, notice number and you will get some results, but the three options below offer a more targeted approach.
